

They Need Help, Let's Help

The 11 years old brother carried the 3 years old sister on back for over 12 hours to approach the rescue station after the massive Chinese earth quake.

Tragedy is happening every each second on our planet, we are losing human lives every each second, and our planet lost over **20,000 lives** in the massive Chinese earth quake.

We can not prevent these tragedies from happening, but what we can do is to pray for the lost, to help the livings, and to wish the God bless all the lives on our planet.

Wish all the birds singing happy in the sky.

Wish all the children running healthy in the lawn.

Wish all the parents smiling at every each corner of our planet.
